

RAFAŁ BOCHNIEWICZ

FULLSTACK DEVELOPER

Fullstack developer working with web technologies since 2017. Node.js and NestJS on the backend, React/Next.js and Vue/Nuxt on the frontend — all in TypeScript. Since 2025 I have been freelancing and building my own production-grade applications — domain modeling with DDD, hexagonal architecture, secure authentication and real-time image processing on mobile devices. I build each project on my own, from the database schema to production deployment.

EDUCATION

Zespół Szkół nr 1 im. Wilhelma Rotkiewicza, Dzierżoniów

2008–2012 | Mechatronics Technician

SKILLS

- **Programming**: TypeScript, JavaScript (ES2023+), SQL, HTML, CSS, Python fundamentals

- Polish — native
- English — B1 (intermediate)

EXPERIENCE

- 05.2025 present **Own Projects — Freelance**

  Independently building the production-grade applications described above: architecture design, backend and frontend implementation, deployment and maintenance.

- 10.2018 05.2025 **NEXCODER Rafał Bochniewicz, Dzierżoniów**

  Web Developer (own business)

  Built and maintained websites for local clients. Handled every project end to end: client communication, quoting, implementation, hosting, graphics and SEO.

- 07.2017 10.2018 **Conditor Sp. z o.o., Ząbkowice Śląskie**

  Web Developer & Marketing

  Built and maintained company websites (WordPress), prepared graphic materials and ran SEO activities.

- 02.2013 03.2016 **Alpha Vision Sp. z o.o., Dzierżoniów**

  Machine Operator / Shift Leader

  Operated production machines, then led a shift — responsible for the process, the team and its results.
